

ANTIQUUE SCR-720 "NIGHT FIGHTING" RADAR  
CONTROL BOX.

P/N BC-1150-B, WESTERN ELECTRIC, NY, USA.

Inspection tag dated 1954.

The SCR-720 Series of Airborne Radar was used in the P-61 "Black Widow" Night Fighter, and the DeHaviland Mosquito fighter aircraft, among others.

It is impossible to guarantee that this unit has never been used, however, due to the overall condition of the item, my best guess is that it was never installed. Normal shelf/bin wear.

It is a wonderful piece of history in excellent vintage condition. Sold as-is, no guarantee of electrical/mechanical operation.
